

Warto się zapoznać z poniższym tekstem o badaniach szczepionkowych w Polsce, która jest haniebnym liderem w nieetycznych komercyjnych eksperymentach na dzieciach prowadzonych dla zysków karteli farmaceutycznych, prawdopodobnie bez zgody rodziców. Kiedy istnieje przymus/obowiązek szczepień, bardzo łatwo jest eksperymentatorom dodać jakąś nielegalną szczepionkę do koktajlu tych obowiązkowych. W tekście podane są główne ośrodki, w których robi się te eksperymenty i nazwiska eksperymentatorów. Niektóre z tych osób zasiadają w komisji decydującej, które szczepionki podawać polskim dzieciom. Jest to ewidentny konflikt interesów.

Kiedy nielegalnie zaszczepione dziecko umrze lub zostanie okaleczone po szczepieniu, żaden lekarz i ośrodek nie ponosi konsekwencji karnych za tę zbrodnię. Są to więc zbrodnie „doskonale” prowadzone w Polsce za przyzwoleniem rządu. Prezydent lub premier mogliby wydać dekret zabraniający takich eksperymentów na dzieciach i zabraniający przymuszania kogokolwiek do szczepień. Dlaczego tego nie uczynili? W tej sytuacji rodzicom nie pozostaje nic innego jak stawiać masowy opór obowiązkowym i przymusowym szczepieniom.
